PROFILE

UI/UX Designer with a background in Communication Design and Interaction Design, experienced in delivering end-to-end design — from user research and Figma prototyping to frontend implementation. Passionate about crafting intuitive, motion-rich digital experiences and bridging the gap between design vision and technical execution.

SKILLS

UI/UX & Design: Figma (animations, prototyping, auto layout), Adobe Photoshop, Illustrator, InDesign, Premiere Pro, Blender, Spline

Frontend: React, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, GSAP

Certifications: Google UX Design Specialization (2024)

Languages: Bilingual in English and Mandarin

WORK EXPERIENCE

Solution Technology Enterprise Pte Ltd | UX/UI Designer

Mar 2025 – Present

- Designed and developed the official STEP company website end-to-end, architecting 25+ reusable UI components using React, Next.js, and Tailwind CSS for scalable, maintainable development.
- Created advanced Figma animations including parallax scroll, time counter, and scrolling brand banner, delivering a polished, motion-rich user experience across the site.
- Optimised frontend performance achieving sub-second render metrics (0.3s FCP, 0.5s LCP) with scroll-triggered animations and dynamic media playback via GSAP.

Client & Product Initiatives

- Prototyped end-to-end UI screens and user flows for a Smart Store initiative, translating experiential concepts into build-ready designs that accelerated stakeholder alignment.
- Supported the "White Room" immersive four-sided projection initiative and contributed to Smart Shelf product ideation — defining user flows for LED display, inventory, and digital signage management.

Aviva | UX Research Intern

Oct 2020 – Jun 2021

- Synthesised user survey data through cleaning and analysis, surfacing actionable insights that directly supported product improvement decisions.
- Built a data product catalogue with structured metadata, improving data discoverability and reusability across research teams.

ACHIEVEMENTS

SCDF & Dell Lifesavers' Innovation Challenge 2023 | UI/UX Designer

2nd Runner-Up | Top 5 Finalist

- Earned commendation from Dell Technologies' Managing Director and SCDF Commissioners for UI design quality, placing among the top 5 finalists nationwide.
- Spearheaded end-to-end UI/UX redesign of the MyResponder app, including a new digital triage feature that streamlined lifesaving workflows through digital transformation.
- Conducted field research, site visits, and stakeholder interviews across SCDF departments to surface operational pain points and ensure solutions aligned with organisational objectives.

EDUCATION

Singapore Institute of Management (SIM) - RMIT University

Jul 2021 – Jun 2022

Bachelor of Design, Communication Design

Nanyang Polytechnic

Apr 2017 – Feb 2020

Diploma in Interaction Design
